

Each **Lynn Blake Golf Academy** and **Private Workshop** features comprehensive training in the principles and procedures of *The Golfing Machine®*, Homer Kelley's landmark text that is revolutionizing the world of conventional golf instruction. You will be led step-by-step to the most effective, efficient golf stroke you are capable of producing at this time.

We begin with understanding the three Core Concepts -- **Hinge Action** (Clubface Control), **Angular Motion**

(Clubhead Control) and the

Inclined Plane

(Clubshaft Control). We then build your stroke in three stages:

Basic

Motion,

Acquired

Motion and

Total

Motion. In addition to the Full Stroke, you will learn Short Game Basics and specialty shots that will dramatically enhance your ability to

score. You also will receive a personalized Video Analysis on CD that will highlight those areas that need work. Finally, you will be given a program to implement on your own that will guide you toward continuous progress and a lifetime of better golf.

Come and experience golf instruction that works! Attend one of our *Lynn Blake Golf Academy* workshops held around the world or arrange a

Private Workshop

with

Lynn Blake

or an

LBG Certified Instructor

near you. The information and techniques you have been looking for are here. You have only to put them to work in your game.
